

Getting Started

SEC³URE Passport

Follow the steps below to your **SEC³URE Passport**.

Step 1

Begin
Registration

Visit **SEC3URE.com** to begin the registration process. Answer the scope of service questions carefully and accurately and complete registration when finished.

Step 2

Add Facilities

Attach to the facilities you will be visiting. This is important because it determines your specific credential and policy requirements.

Step 3

Upload your
Credentials

Review what's under the Credentials tab and submit the appropriate documentation that is required based on the facilities that you have chosen.

Step 4

Upload your
Profile Photo

Upload a professional, passport style photo of yourself so that you will be easily identified when checking into facilities. Then fill in the rest of your account profile including customizing your message and alert preferences.

Step 5

Download the
SEC³URE
Mobile App

Install the free **SEC³URE Mobile App** to take full advantage of the convenience and portability of your **SEC³URE Passport**.

Welcome to the **SEC³URE Ethos!**

That's it! Just follow each of the facilities' check-in and check-out procedures and if you ever need anything, reach out to an IntelliCentrics Hero for support, **817-SEC3URE (732-3873)** and they will be happy to help.
