

Mobile Clinician App for Important Imaging Results

St. Peter's Hospital is pleased to announce a great new way for providers to receive important results notifications from imaging exams:

- Free download to an Apple or Android device
- Receive, review, and acknowledge critical test messages while on the go
- Simple, Fast, HIPAA compliant
- Enter a 4 digit passcode, view the result, and Accept or Decline with a single click

Enter your information below and send it back. We will update your communication profile and send you an e-mail with instructions to create a password.

Once you have created the password, you will be able to download and begin using the Mobile Clinician app.

Provider NAME: _____

Provider E-MAIL: _____
