

Contactless Check-in,
Visible Compliance

SEC³URE GO!

Waiting in line to check in at a kiosk may take away your valuable time during a facility visit. With **SEC³URE GO!** e-badge, check-in is easy and contactless for all.

You are checked in via the **SEC³URE** mobile app and cleared to enter upon arrival, with **SEC³URE GO!**. Because check-in doesn't require a kiosk, it saves you time and reduces the risk of surface contamination.

SEC³URE GO! is wearable, so you don't need to print a badge and your trusted status is visible on the e-badge, while you are on the premises.

SEC³URE GO! gives you fast access to facilities and takes your check-in experience to a new level.

When facilities use SEC³URE GO! as their primary check-in method:

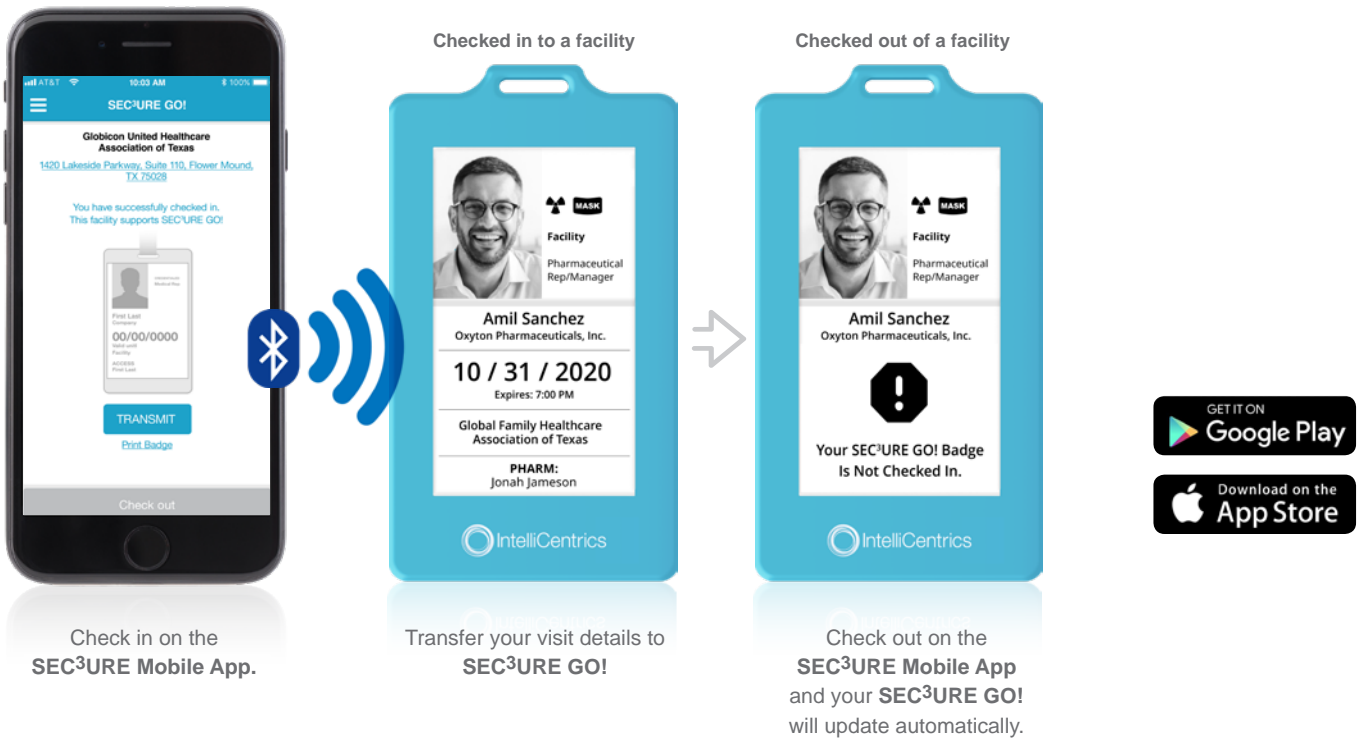

- + You are checked in and ready to go when you arrive at the facility
- + Your visit information is displayed on the e-badge during your time onsite
- + With fast and contactless check-in, you get more time back to do your job

You receive a **SEC³URE GO!** when you sign up for **SEC³URE Passport 2.0**. It is one of the many benefits of being a member of the world's largest trusted healthcare community.

SEC³URE GO! is available on our **SEC³URE Ethos** technology platform, which includes industry-leading innovations designed to increase revenue, save time, and elevate compliance.

SEC³URE GO!
enables trusted
access to more than
11,000 locations of
care worldwide.

Are you ready to GO!?
